Text Image GenAI evaluation flashcards

[E] Text Image GenAI
evaluation flashcards

**Q. What is
roundtrip
evaluation?**

A. Generate
image from prompt
→ caption image
→ compare
caption to original
prompt (semantic
metrics).

[E] Text Image GenAI
evaluation flashcards

**Q. Which metric
measures image
quality?**

A. FID (Fréchet
Inception
Distance).

[E] Text Image GenAI
evaluation flashcards

**Q. Which metric
measures
semantic
alignment between
image and text?**

A. CLIPScore.

[E] Text Image GenAI
evaluation flashcards

**Q. Name one
perceptual metric
used for image
similarity.**

A. LPIPS.

**Q. Why
complement
automatic metrics
with human
studies?**

A. Automatic
metrics don't fully
capture realism,
coherence, or
bias; humans
provide qualitative
judgment.
